

Adopt-a-Lake: Need Volunteer (lake list)				Vermont Loon Recovery Project					
This list does not include nesting loon lakes with highly active volunteers on the lake.									
Some of these lakes have volunteers already, but more surveys will help assess pair status better.									
Priority				REGION					
1) breeding (no volunteer or less active vol.)				nc	north central		gm green mountains		
2) priority (potential territory, loon activity)				wc	west central		nek northeast kingdom east		
				cha-s champlain valley south					
Volunteer Needs									
Monitoring: 1-4 surveys per month mid-May through July, then 1-2 surveys per month through August									
Nest Warning Signs: place in early May, remove after nesting, and maintain									
Nesting Raft: place and vegetate in early May, remove after nesting, and maintain
