Bird codes: BITH=Bicknell's, SWTH=Swainson's, BLPW=Blackpoll, WTSP=White-throated Sparrow, WIWR=Winter Wren
 Time period codes: A = 0-3 minutes B = 3-5 minutes C = 5-10 minutes

Activity codes: S = singing C = calling I = individual seen D = Drumming F = Family group N = Active nest

Mail data sheets to Julie Hart; Vermont Center for Ecostudies; PO Box 420; Norwich, VT 05055.

Mountain Birdwatch Playback Data Sheet

Conduct playbacks and complete this form only if no Bicknell's Thrushes have been detected on the survey route before, during or between point counts. Broadcast the one-minute recording of songs and calls at high volume and listen silently for two minutes. Repeat this at each station in the reverse order of the original survey (points 5 to 1) until you hear or see a Bicknell's Thrush or until playbacks have been conducted at all listening stations. On the black-and-white route map, plot the position of any responding BITH.

Name: Rosie Finch

Route: Crossbill Mtn

Date: June 4, 2006

Point 5

Playback time: 6:10

Comments:

Response: song call visual none

Number of BITH responding: 0

Point 4

Playback time: 6:20

Comments: Flew in immediately and perched at trail's edge.

Response: song call visual none

Number of BITH responding: 1

Point 3

Playback time: :

Comments:

Response: song call visual none

Number of BITH responding:

Point 2

Playback time: :

Comments:

Response: song call visual none

Number of BITH responding:

Point 1

Playback time: :

Comments:

Response: song call visual none

Number of BITH responding:

If you complete playbacks without detecting Bicknell's Thrush, please return to your route before July 15 to help verify your results with a follow-up playback survey. Follow-up playbacks can be conducted at dusk or dawn. Refer to the manual or the follow-up playback data sheet for more details. Please notify the Mountain Birdwatch Coordinator as soon as possible if you are unable to return to the site. Thank you for the extra effort!
